Empower administrative professionals to excel and be recognized

“ Sylvia was unlike any keynote speaker we’ve worked with before in her ability to thread the specifics needs and interest of our community throughout her remarks. She was truly special and an absolute joy to work with.
Margaret O. - President of Wildlife Habitat Council

“ Sylvia gave the absolute best talk that I have seen during my career using her great speaking skills, positive spirit, and humor to inspire our team. What really separates Sylvia from other speakers was the groundwork that she put into getting to know the company, the team, and the core issues being faced by our collective group.
Kevin M. - VP of Sales, Greiner Bio One International
